Spring meeting 2021

We are pleased to announce that our Spring 2021 meeting will take place online during the week 19-23 April 2021. All of the fantastic speakers from our cancelled 2020 meeting have agreed to speak in 2021, and we are working on a number of interactive online activities to make the meeting go with its usual swing. More info and registration details coming soon.

BSDB Medal Winners

A highlight of the 2021 Spring meeting will be the talks from our 2020 medal winners. We will not award any additional Waddington or Cheryll Tickle medals during 2021 but will extend the eligibility period (time since starting lab) by one year for 2022 Cheryll Tickle nominations.

Nominations will open in January for our 2021 Beddington Medal. <http://bsdb.org/awards/the-beddington-medal/> so please start thinking of excellent PhD students to nominate.

Developmental Biology practicals online

Finally, we know many of you are hunting for ideas for how to move your undergraduate Developmental Biology practicals online next semester. The BSDB would like to facilitate the sharing of ideas and resources. Look out for more information coming up on the BSDB twitter feed @_BSDB_

Alternatively, email our comms officer at comms@bsdb.org
